3. The third observation was made on the 3rd of January 2020. The weather was clear and sunny. The temperature was 27°C. The wind was light and from the north. The humidity was 62%.		4. The fourth observation was made on the 4th of January 2020. The weather was clear and sunny. The temperature was 28°C. The wind was light and from the north. The humidity was 63%.	
5. The fifth observation was made on the 5th of January 2020. The weather was clear and sunny. The temperature was 29°C. The wind was light and from the north. The humidity was 64%.		6. The sixth observation was made on the 6th of January 2020. The weather was clear and sunny. The temperature was 30°C. The wind was light and from the north. The humidity was 65%.	
7. The seventh observation was made on the 7th of January 2020. The weather was clear and sunny. The temperature was 31°C. The wind was light and from the north. The humidity was 66%.		8. The eighth observation was made on the 8th of January 2020. The weather was clear and sunny. The temperature was 32°C. The wind was light and from the north. The humidity was 67%.	
9. The ninth observation was made on the 9th of January 2020. The weather was clear and sunny. The temperature was 33°C. The wind was light and from the north. The humidity was 68%.		10. The tenth observation was made on the 10th of January 2020. The weather was clear and sunny. The temperature was 34°C. The wind was light and from the north. The humidity was 69%.	

OBSERVATIONS		AGRICULTURE	
11. The eleventh observation was made on the 11th of January 2020. The weather was clear and sunny. The temperature was 35°C. The wind was light and from the north. The humidity was 70%.		12. The twelfth observation was made on the 12th of January 2020. The weather was clear and sunny. The temperature was 36°C. The wind was light and from the north. The humidity was 71%.	
13. The thirteenth observation was made on the 13th of January 2020. The weather was clear and sunny. The temperature was 37°C. The wind was light and from the north. The humidity was 72%.		14. The fourteenth observation was made on the 14th of January 2020. The weather was clear and sunny. The temperature was 38°C. The wind was light and from the north. The humidity was 73%.	
15. The fifteenth observation was made on the 15th of January 2020. The weather was clear and sunny. The temperature was 39°C. The wind was light and from the north. The humidity was 74%.		16. The sixteenth observation was made on the 16th of January 2020. The weather was clear and sunny. The temperature was 40°C. The wind was light and from the north. The humidity was 75%.	
17. The seventeenth observation was made on the 17th of January 2020. The weather was clear and sunny. The temperature was 41°C. The wind was light and from the north. The humidity was 76%.		18. The eighteenth observation was made on the 18th of January 2020. The weather was clear and sunny. The temperature was 42°C. The wind was light and from the north. The humidity was 77%.	
19. The nineteenth observation was made on the 19th of January 2020. The weather was clear and sunny. The temperature was 43°C. The wind was light and from the north. The humidity was 78%.		20. The twentieth observation was made on the 20th of January 2020. The weather was clear and sunny. The temperature was 44°C. The wind was light and from the north. The humidity was 79%.	

OBSERVATIONS		AGRICULTURE	
21. The twenty-first observation was made on the 21st of January 2020. The weather was clear and sunny. The temperature was 45°C. The wind was light and from the north. The humidity was 80%.		22. The twenty-second observation was made on the 22nd of January 2020. The weather was clear and sunny. The temperature was 46°C. The wind was light and from the north. The humidity was 81%.	
23. The twenty-third observation was made on the 23rd of January 2020. The weather was clear and sunny. The temperature was 47°C. The wind was light and from the north. The humidity was 82%.		24. The twenty-fourth observation was made on the 24th of January 2020. The weather was clear and sunny. The temperature was 48°C. The wind was light and from the north. The humidity was 83%.	
25. The twenty-fifth observation was made on the 25th of January 2020. The weather was clear and sunny. The temperature was 49°C. The wind was light and from the north. The humidity was 84%.		26. The twenty-sixth observation was made on the 26th of January 2020. The weather was clear and sunny. The temperature was 50°C. The wind was light and from the north. The humidity was 85%.	
27. The twenty-seventh observation was made on the 27th of January 2020. The weather was clear and sunny. The temperature was 51°C. The wind was light and from the north. The humidity was 86%.		28. The twenty-eighth observation was made on the 28th of January 2020. The weather was clear and sunny. The temperature was 52°C. The wind was light and from the north. The humidity was 87%.	
29. The twenty-ninth observation was made on the 29th of January 2020. The weather was clear and sunny. The temperature was 53°C. The wind was light and from the north. The humidity was 88%.		30. The thirtieth observation was made on the 30th of January 2020. The weather was clear and sunny. The temperature was 54°C. The wind was light and from the north. The humidity was 89%.	

OBSERVATIONS		AGRICULTURE	
31. The thirty-first observation was made on the 31st of January 2020. The weather was clear and sunny. The temperature was 55°C. The wind was light and from the north. The humidity was 90%.		32. The thirty-second observation was made on the 1st of February 2020. The weather was clear and sunny. The temperature was 56°C. The wind was light and from the north. The humidity was 91%.	
33. The thirty-third observation was made on the 2nd of February 2020. The weather was clear and sunny. The temperature was 57°C. The wind was light and from the north. The humidity was 92%.		34. The thirty-fourth observation was made on the 3rd of February 2020. The weather was clear and sunny. The temperature was 58°C. The wind was light and from the north. The humidity was 93%.	
35. The thirty-fifth observation was made on the 4th of February 2020. The weather was clear and sunny. The temperature was 59°C. The wind was light and from the north. The humidity was 94%.		36. The thirty-sixth observation was made on the 5th of February 2020. The weather was clear and sunny. The temperature was 60°C. The wind was light and from the north. The humidity was 95%.	
37. The thirty-seventh observation was made on the 6th of February 2020. The weather was clear and sunny. The temperature was 61°C. The wind was light and from the north. The humidity was 96%.		38. The thirty-eighth observation was made on the 7th of February 2020. The weather was clear and sunny. The temperature was 62°C. The wind was light and from the north. The humidity was 97%.	
39. The thirty-ninth observation was made on the 8th of February 2020. The weather was clear and sunny. The temperature was 63°C. The wind was light and from the north. The humidity was 98%.		40. The fortieth observation was made on the 9th of February 2020. The weather was clear and sunny. The temperature was 64°C. The wind was light and from the north. The humidity was 99%.
